Why is OSUSPP partnering with AFSP to host this event?

The Ohio State University Suicide Prevention Program, in collaboration with The American Foundation for Suicide Prevention, are launching OSU’s first inaugural campus walk in the fight to prevent suicide and promote a culture of care. We are committed to creating a systematic and coordinated effort where suicide prevention is seen as a shared campus responsibility.

OSUSPP believes:

- Suicide is preventable.
- Stigma reduction is critical to reduce suicide risk and promote a campus culture that encourages mental health help-seeking.
- Suicide prevention and mental health are critical components of student academic and overall success.
- Suicide prevention involves intentional and strategic education, advocacy and outreach efforts that aim to prevent suicide by emphasizing good mental health.
- Active and engaged campus partners and a high level of student involvement are essential to program success.
- Suicide prevention programming should use and contribute to a comprehensive model grounded in empirical research and evidence-based best practices for public health promotion.
